Certification Status

In order to gain access to the Test and Live Environments you must certify that you're able to communicate with WWd's systems and write code to accomplish the following

- Check the availability of domain names
- Make domain purchases
- Purchase Privacy for domains
- Query for domain information
- Renew domain names
- Transfer a domain name

The certification test is documented in the API instructions. Click here to download.

Links to Your Storefront

After your customers purchase items, they'll be using tools that are provided by Wild West Domains and are located here. When any of your users are in this site, Wild West Domains provide many cross-selling and upgrading opportunities - such as upgrading to a higher version of your products.

In order to process any requested orders, we need certain links back to your Web site. Please provide the link information below. If no link is provided, then that option will not appear in the management tools section that we provide.

Hosting Name Servers

Here you can choose your own name servers or default to Wild West Domains' name servers.

I would like to use Wild West Domains' default name servers.

These name servers must be used if you are providing hosting and email services through Wild West Domains.

ns1.secureserver.net
ns2.secureserver.net

I would like to provide my own custom name servers.

You must provide a minimum of 2 name servers and no more than 12. Please do not enter IP addresses; name servers should be in the format ns.domain.ext. To check the validity of a name server, go to the Name Server Registry.
